MISCELLANEOUS.

Failing!

That is what a great many people are doing. They don't know just what is the matter, but they have a combination of pains and aches, and each month they grow worse.

The only sure remedy yet found is BROWN'S IRON BITTERS, and this by rapid and thorough assimilation with the blood purifies and enriches it, and rich, strong blood flowing to every part of the system repairs the wasted tissues, drives out disease and gives health and strength.

This is why BROWN'S IRON BITTERS will cure kidney and liver diseases, consumption, rheumatism, neuralgia, dyspepsia, malaria, intermittent fevers, &c.

Mr. Simon Blanchard, a well-known citizen of Hayesville, Meade county, Kansas, says: "My wife had been sick for a long time, and her constitution was all broken down and she was unable to work. She was advised to use BROWN'S IRON BITTERS, and found it to work like a charm. We would not now be without it for any consideration, as we consider it the best tonic in the world."

BROWN'S IRON BITTERS is not a drink and does not contain whiskey. It is the only preparation of iron that causes no injurious effects. Get the genuine. Don't be imposed on with imitations.

THE MORMON SPARROW.

The Salt Lake Tribune in a disquisition of the English sparrow says: They eat the fruit instead of the worms; they are uncleanly, making their nests and perching about houses in a manner to become unmitigated nuisances; from their presence the song-birds disappear; they have a mortal hatred toward every other species of bird; they are simply pitiless plunderers, and while as colonists they are eminently successful, their success is at the expense of every other bird in the neighborhood. Finally, they have neither beautiful plumage nor beautiful voices, and their coming to America originally was a great misfortune." Then the Tribune gives the Mormons the following dig: "John Taylor and George Q. Cannon are the worst pair of English sparrows that were ever imported to America."

ENCOURAGEMENT.

Here and there the signs are visible which indicate that it will not be long before Nevada will enter upon a new career of prosperity, says the Carson Index. The time is not far distant when mining as a wide-spread and successful industry will give fresh life and vigor to the silver State. We believe Nevada has reached the foot of the ladder, and is commencing to reascend. Those who remain here during the next decade will find unexpected and excellent opportunities for business and the acquirement of wealth. Let the people be courageous and true to themselves. Their time is coming. Stay with the ship!

EDITORIAL NOTES.

A cattle buyer of Stockton tells the Independent that he fears it will be but a few years before all the beef consumed here will have to be brought from abroad. The bulk of it now comes from Nevada and Oregon, but he thinks Texas will soon have to furnish a good portion of it, as the consumption of beef increases every year, and the farmers pay less attention to raising cattle and more to the cultivation of wheat. He did not think the price of beef would be affected at all by the prospective good feed, and was of the opinion that it would never be cheaper.

There were 1,342 immigrants by the two overland routes during the past week. A settlement of about 50 French families who had been induced to immigrate to Canada, and who are disappointed, have, upon applying for information to the manager of Castle Garden, New York, been referred to the Immigration Association of California and are expected to come to this coast in a short time.

A minister of the Gospel was seen in Brownsville, Pennsylvania, with an empty bottle protruding from his pocket, while he walked with an uncertain step; and the deacons, an evil and censorious breed, accuse him of drunkenness. It is this villainous spirit which drives many good men to their graves. If there is a harmless object in this world it is an empty bottle.

The citizens of Arizona are preparing to take the law into their own hands against the Apache assassins and robbers who have broken loose upon the settlers of that Territory once more and are carrying slaughter and destruction along the frontier. It is impossible not to sympathize with the citizens of Arizona.

Ben. Hogan, the reformed pugilist, once "champion of America," is coming west to pound the gospel into the sinners of the Pacific coast. He is said to be both eloquent and earnest.

At Portland, Al. James, convicted of an assault on Ida Hudgin, 14 years old, was fined \$500. He cannot pay the fine and will have to serve 250 days in jail. He was accompanied, one McCoy, who assaulted Mary Esser, aged 14, is sick in prison and likely to die.

The Dynamite Scare in England—More Arrests.

LONDON, April 6.
 The mysterious liquor found in the dynamite factory at Birmingham shows that if it had remained on hand a few days longer it must have exploded from inherent defects in its manufacture.

Nelson Square, Lambeth, was a place of Penian refuge in 1867.

The prisoner Henry Dalton went to America 10 years ago. He stayed some time in New York State, and then went to New Jersey, where he pursued the calling of a compositor. Dalton's parents state that they know nothing about the prisoner's affairs. Dalton first appeared at Bowles' American reading-room on the 19th of March, having made a voyage from America in a White Star steamer.

LONDON, April 6.

In respect to the arrest of Dalton, alias O'Connor, the police testified that he refused to give any address, except Bowles' reading-rooms, No. 14 Edward Place, Fulham road. He was, however, searched, and some pieces of fuse and a thermometer found. Dalton here said, contemptuously, "The fuse you found was merely a cigar-lighter." They found upon him a diary, which contained a recipe for the manufacture of fulminate of mercury, and other chemical compounds. Dalton here reiterated the denial that he had the slightest acquaintance with the other prisoners, or any knowledge of them. The prisoners were all remanded until Thursday without bail.

The Freeman's Journal says: It is the duty of every honest and honorable Irishman to reprobate and denounce that species of devilry which can only end in the alienation of all good men from their support of the national cause, and the collapse, ruin and disgrace of the cause itself.

Fisher, arrested at Birmingham, is believed to be Fletcher. When Whitehead was arrested he made an effort to get a bottle of liquid from a cupboard. The windows of Whitehead's room were lined with wire gauze to prevent missiles entering. About 70 pounds of nitro-glycerine in Whitehead's manufactory was contained in a carboy, this being placed in a tub of ice to keep the temperature low until the dangerous substance could be removed. The Birmingham police have information that a man in communication with Whitehead left Birmingham the day before the explosion occurred at the local government boards' offices.

CORK, April 6.

Clermody, Aherilly and Featherstone, the men arrested on a charge of being dynamite carriers, had a re-examination to-day, conducted with the utmost privacy. They were further remanded for a week, but bail was refused. Featherstone created a sensation by declaring that for himself he was a citizen of the United States, and he had placed himself and his case in the hands of the United States Consul, and expected through that official redress for the indignity heaped upon him.

Accident on the Canadian Pacific.

WINNEPEG, Man., April 6.
 An accident occurred on the Canadian Pacific road between Emerson and Winnipeg this evening, by which engineer Robinson was killed. The express from the south ran into a freight at Riverville. The fireman of the express jumped off, but the driver stood at his post and was killed. One passenger was severely wounded and several more slightly.

Old Jeff Still Alive.

NEW ORLEANS, April 7.
 Incident to the ceremony of decorating the graves of the Confederate dead in this city yesterday, and laying the corner stone of a monument to be surmounted by an equestrian statue of Albert Sidney Johnson, was an oration delivered by Jefferson Davis, in which he eulogized the character of the dead leader. Johnson was recognized as a strong pillar of the Confederacy, and when he fell on the field of Shiloh, the mightiest column which sustained the cause had fallen. He died in a moment of victory, and had he lived half an hour longer he would have made Grant prisoner or a fugitive. The Confederacy had three great leaders—Lee, Jackson and Johnson—who would compare with the leaders of antiquity or modern times.

A Man Who Knows More About Elephants than Barnum.

NEW YORK, April 7.
 Henry Bergh, the defender of all animals, has written a letter to Barnum, the circus man, condemning the killing of the elephant Pilot. His argument is that kindness instead of cruelty would have subdued the animal. Barnum's reason for killing Pilot was that he considered it safer than to subject his patrons to danger. **Butler's Proclamation Not Original.**

BOSTON, April 6.

It now transpires that Governor Butler's proclamation for which he is so severely criticised by the press was the same proclamation verbatim of Governor Gore in 1810. Butler says: "All criticisms are directed against that learned and pious man, not against me."

LOC ROLLING.

While Wrestling With a Fallen Tree a Lumberman Receives Consequential Damages.

While on a hunting excursion in the great coal and wood region near Carbon-dale, Pa., the writer met William Coll, a lumberman. Accustomed to life and labor in the forest from early manhood, he was a true Knight of the Axe. Many a tree had fallen before his ringing strokes, and fleets of rafts had borne away to market the saved products. Coll is a character, and if Oscar Wilde is right in saying that all movements in unhindered labor are graceful, our friend William, stripped for his work and attacking a tree as Achilles assailed the heavy doors of Front de Boeu's castle, must have presented an admirable picture.

One day, however, but let him tell the story himself, as he told it to me:

"I was out in the woods, you know, trying to start a log down a hill. Thinking I could get a better purchase on it from the lower side, I tackled it there with my log-rolling hook and threw my weight on the lever. She started, she did, but as luck would have it, before I could get out of the way, she rolled right over me. If it hadn't been for a lot of small limbs and brush lying in the road, which raised her up, she'd have crushed me flat. As it was, I got up without a broken bone, but with some mighty bad bruises."

"Then you were all right," said his auditor.

"Not by a blamed sight, stranger. I took cold, rheumatism set in, and if I hadn't heard of BENSON'S CAPSINE POROUS PLASTERS and used 'em, it's my opinion I should never have made another chip fly. But the Capsine took hold quick, and I'm 'bout as good as new. But there's one thing you kin kalkilate on: I shall never venture with another log unless I have the advantage of the ground. For, as I told you before, if it hadn't been for them brushes I'd a been smashed so you couldn't a sold me for a door mat."

The Capsine is the thing for rheumatism. It doesn't keep you waiting. The word CAPSINE is cut in the center of the genuine. Price 25 cents.

And to Judge Edwards of Carson for further particulars of the pedigree of the mare, [28mar2m] SMITH HILL.

TAILORING

ESTABLISHMENT.

MY REPUTATION AS A TAILOR is already established. "The Boss Tailor" lives in all country towns. They advertise shop-worn auction goods; they dispose of clothes not saleable in the larger cities, and are continually trying to mislead their patrons by false representations. Reno is no exception to the rule. She has a "Boss Tailor," but look at a suit made by the Virginia street "Boss" and you will immediately see the point.

MY STOCK

Is carefully selected. It is of the very best of Foreign and Domestic Manufacture and I am prepared to make suits of the latest style, cut from the finest goods, at prices never before equalled. My work speaks for itself. I guarantee a fit in every case. Call and examine my samples and prices. Leave your measure and be happy. Don't be misled by the "Boss." You will always regret it if you do. Before giving your order call at my shop and see for yourself.

JOTTINGS.

Minor Occurrences in and about Town.

Eggs are plentiful at 25 cents per dozen.

The market is well supplied with everything now.

Three moves are equal to one fire without insurance.

A. J. Clark has sold his band of horses to J. L. Woods.

The up-country stages are well patronized now, both ways.

Who ever heard of a clerk's failure or a preacher having money to loan?

The railroad company talk of testing this climate for grapes if a suitable place can be found.

Senator Parker has gone to California to consult with the Fish Commissioners of that State.

Chinamen have started to go east again. Every morning train has a number of moon-eyed passengers.

The usual Spring freshet of freight is rolling in. The warehouse at the depot is being filled up fast.

New and novel features in stationery and blank-books. Call and examine at Brookins'. See 50-cent column.

The barometer is dancing again, and the actions of the horned-head denote that there is something in the wind.

A young humpbacked Washoe Indian appeared on the streets today who had evidently had the rickets when a child.

Cattle men are looking around sharply for bees and buying all they can get hold of at current rates, as if anticipating a rise.

An ex-deputy sheriff was in hot water last night. His creditors got after him and made him feel as miserable as a bankrupt cheap-john.

A grocer had a pound of sugar returned, with a note attached to it, saying: "Too much sand for table use, and not enough for building purposes."

There will probably be a very long special cattle train, loaded with heaves from Iron Point, pass through Reno to-morrow, in charge of Wm. Hope and Barney Horn.

The V. & T. train was again late last night, from the same cause which delayed it Thursday evening. They seem to be making a steam-tug of Tom Clarke's engine.

M. T. Barnett will take the store formerly occupied by Dickens, and will deal in vegetables, country produce and groceries. Look for his advertisement on Monday.

A. H. Barnes has been overtaken by a cloud-burst of pork. His 500-pound Berkshire sow yielded a crop of 17 pigs last night, 16 of the litter new being alive and frisky.

Fishermen complain that the coal-tar floating down the river is a thousand times worse than sawdust, and that it keeps trout from going up to the spawning grounds above.

One cat's musical voice was missed from the old cats' chorus last night, he having run his head against a rock while investigating a hen's nest at the Golden Eagle henery.

The Bass Bros. of Janesville yesterday brought in 200 head of fine heaves for Grace & Harrod of Oakland, who have 300 head of very fine steers bought of Kelly & Winchel to arrive in about ten days.

Prospectors are taking the field in considerable numbers. A great portion of them are going to the Sweetwater mines and Mill Creek. Both are good fields for intelligent men who are not afraid of work.

There will be a fine dinner at the Palace to-morrow. Lemery will make one of the best spreads possible—turkey, chicken, wild duck and all sorts of niceties from California. Go and fill up for four bits.

Will Moger and Will Webster had a smash-up in a buggy yesterday. The horse got scared at an engine-post, spilling them out and bruising them somewhat, besides damaging the vehicle.

Nearly 100 emigrants went west last night. Most of them were very young, few having arrived at middle age. The greater portion of them were bound for Washington Territory, which is being peopled as California was in flush days.

The Indians had a big game of poker on the Plaza reservoir yesterday. There was considerable money on the blanket at times, and the players were so absorbed in the game that they did not quit until it became so dark that they could no longer see the cards.

The improvements at the Palace are about completed. Two large arches have been cut between the old Arcade and Palace restaurants, forming the largest dining room in Nevada, capable of seating a regiment. It will be kept in first-class style by Lemery & Fontaine.

A crank invaded the planing mill this morning, coatless and hatless, and holding up his hands as if pronouncing benediction over the whole valley, said: "Follow me. I am the meek and lowly Jesus." It is needless to remark that he was scooped into the tank. It is singular that all the religious beats mistake Reno for Jerusalem.

BOLD LITTLE BOOTBLACKS How They Manage to Steal Hides Upon the Railroad.

Several juvenile bootblacks have been about town for several days, "watching for a chance to get out." This morning one of them remarked that he guessed he "would take this train for Ogden." The person to whom he made the remark asked, "Have you got the money to pay your fare?" Then the little shiner's eyes opened with astonishment, "Pay fare! Guess you haven't been in this country long?" A few minutes afterwards two of the youngsters, with their kits, were discovered stowed away in the truck of a passenger car, in a space where it would seem that a rabbit could hardly be secreted. They were objects of curiosity for a few minutes to those standing around, and when they got out one of them remarked that he was going on that train, anyhow. These young tramps are the boldest of any in the "profession." They will ride upon anything that affords a fair handhold. A conductor at the depot said he had seen them clinging to a truss rod, balanced like an acrobat on a tight-rope. The greatest wonder of all is that they seldom get injured.

PERSONALS.

Brief Mention of the Movements of Notables and Others.

Hon. C. N. Noteware, Carson, is in town.

Mrs. S. C. Wright, is visiting Reno friends.

General Davis went below last night to his home in Oakland.

D. A. Bender and L. L. Crockett came down from Carson to-day.

Dan Wheeler, the sheep king, came up from the Bay this morning.

J. W. Eckley, agent of the Bank of California in Virginia, went below last night.

It is said that ex-Senator Sharon will come back to Nevada to live, his health requiring a change.

G. W. Meylert was a passenger on his own stage for the North yesterday, homeward bound from below.

A. Ward and son left for Cedarville to-day, heavily loaded with goods for the Kistler Bros. and Cresler & Bonner.

Sheriff Emmitt returned from Plumas county yesterday, and reports the crop outlook good in that section of country.

The father of Hon. John A. Johnson, ex-Assemblyman from Douglas county, died at Christiana, Wis., recently, aged 77.

Postmaster White of Carson is steadily improving, much to the gratification of his friends.

E. W. Crutcher, the cattle man, returned from San Francisco this morning. To-morrow he will start out to gather up the horses he recently sold to Wyoming parties.

T. J. Glascock of Susanville, having been in San Francisco as a delegate to the Grand Lodge meeting of the A. O. U. W., came up this morning and will take the stage for home to-morrow.

The Jess Bros. came in on the Surprise valley stage last evening, and will proceed on to San Francisco to-night, having sold out to Patterson & Clark. They are on the lookout for something else.

Parties who came in on the Surprise Valley stage last evening report that a wedding took place at Cedarville Thursday evening. The interested parties are said to be Murray Dunham, the photographer, and Miss Maggie Ford of Honey Lake valley.

New Patents.

Dewey & Co.'s Scientific Press Patent Agency has official reports of the following U. S. patents issued March 27, 1883: L. D. Craig, San Francisco, plug stop valve; L. D. Craig, San Francisco, revolving water-closet stench trap; E. Detrick, San Francisco, seam for grain bags; A. P. Gross, San Francisco, harness coupling; A. D. Kilborn, Tucson, A. T., safety valve; A. H. Lighthall, San Francisco, underground cable railroad; A. H. Lighthall, San Francisco, gripper for traction cables; Maltby and Sabine, Chico, Cal., surcingle; Mary A. Merrill, San Francisco, sketcher's coat; W. B. Morris, San Francisco, railway safety alarm; Jos. Murphy, San Jose, Cal., railway switch; M. J. O'Leary, Springfield, Cal., bridge bit; W. B. Robertson, Jr., San Francisco, obtaining boracic acid from borates; A. Savage, Salem, Ore., cord grasper and cutter for grain binders; R. Waugeman, San Francisco, screw clamp for stools.

They Knew What Was Needed.

Three prospectors fitted out yesterday for a trip to Silver Glance district. Two of them were old Bodie skrimshers and knew what a man needs in the mountains.

The main feature of the outfit was whisky. A five-gallon keg of the fiery beverage was lifted into the wagon, and then came a box of crackers, brought by the third man, who was a new hand at the business. "What'n thunder are you going to do with them crackers? Ain't we got whisky enough to last us a week?"

A Railroad Rumor.

It is reported that the V. & T. Railroad Company will sell off their rolling stock and make their road a narrow gauge from the Mound House to Reno, and eventually run the C. & C. on north from here.

THE TERRORS OF "MOVING."

The "Gazette" Printing Office Turned Into a Bedlam.

A London brothel at seven o'clock in the morning, after a crew of man-o'-war men have had a 24-hours' spree in it, is a well regulated den compared with the condition of the GAZETTE office at this particular time. Everything is in a heap. It is an incessant slambang which even a stone-deaf man cannot ignore. All of the traps in the office seem to be jumping and sliding around and the stands and imposing stones are having a Virginia reel while the devil beats time on the water-bucket. A troop of draymen and roustabouts are skinning the concern, each trying to see who can make the most noise. All this is occasioned by the GAZETTE moving into its new quarters on Virginia street, where it will have, without exception, the finest office on the Pacific coast. By the middle of next week everything will be quiet again and things will settle down into the regular groove. Then the scribe will say, "Thank God from whom all blessings flow."

PLUMAS ITEMS.

News Items Culled From Our Greenville Exchange.

The following are taken from the Greenville Bulletin:

Martin Mitchell, has been sentenced to State's prison for perjury in the Taylor case.

Last Friday there was six feet of snow on the ground around the mines in Emerald district. Work is suspended for the present.

Last week the bridge crossing Wolfcreek on Crescent street had to be tied to the trees near by to prevent it being swept away.

On the road between Sierra valley and Clover valley there was three feet of snow last week and a good deal has since fallen. The Chico road is now closed beyond Prattville.

Since the storm set in, on Sunday a week ago, all out-door farm work has ceased; from the best information we can get it would appear that about one-third of the area usually planted with grain yet remains to be plowed.

On Monday His Honor Judge Clough gave his decision in the Taylor water suit, and decided in favor of Mrs. Taylor et al. This case has been in court about two years, and has cost a deal of money. No appeal will be taken.

A Hot Summer Predicted.

The coming Summer is going to be a hot one in Sacramento valley, according to a local Wiggins, says the Marsville Appeal. His theory is that the Winters of light snowfall on the mountains are followed by Summers of excessive heat, and that a heavy snowfall insures a comparatively cool Summer. The existence of large bodies of snow on the Sierra and the Coast Range, he argues, modifies in a marked degree the heat in the valley. He says there will be no snow left on the mountains, to speak of, next Summer, and hence he predicts that the Summer will be hot.

How do They Learn It?

The Plutes about Reno seem to be well posted about Indian affairs in Arizona. They know when a fight has taken place and how many have been killed, and as to the character of the country the hostiles are marauding, they know more about it than the average school-boy. How do they learn this unless some white man posts them?

Snow on the Mountains.

The snow on the hills is melting fast, under the warm sun. In a few days they will be as bare as before the late storm; but there is yet considerable in the swales and gulches where snow may possibly stay until late in the Summer, thus keeping up a supply of water for the use of the farmers. The Truckee holds its own, but will probably begin to fall soon.

North Truckee School.

Report of the North Truckee school for the month ending April 6th, 1883: Number of boys enrolled, 14; number of girls, 11; total, 25; average attendance, 21.84.

ROLL OF HONOR.

Minnie Smith, Katie Kinney, Lottie Shaber, Annie Ross, Emma Burch, Charles Ross, Willie Shaber, N. A. HUMMEL, Teacher.

Gaining in Cash Receipts and Making Improvements.

The Carson & Colorado road is gaining business steadily. Last month the receipts were several thousand dollars more than for any previous month. Thirty new freight cars, built at Carson, have just been added to the rolling stock of the road.

A New Horseshoe.

Mention is made of a new kind of horseshoe, composed of three thicknesses of cowhide compressed into a steel mold and subjected to a chemical operation. It is said to last longer than the common shoe, weighs only one-fourth as much, requires no corks and is very elastic.

Not a Gaily Man.

W. H. Crane, ex-Register of the Susanville land office, before Judge Hoffman in San Francisco, pleaded not guilty of fraud.

CHEERFUL OUTLOOK.

Water Prospects in Plumas—A Good Supply for Summer.

Rain set in a week ago and the storm continued all the week with but little cessation, says the Greenville Bulletin, alternating between snow and rain. During one 24 hours the water in Round valley reservoir raised about six feet, the streams pouring in torrents from all sides. This was before any snow had fallen, and when the area to be covered was not so great as it has since become. The water still keeps rising steadily; on the mountains around there is a depth of about two feet of snow, very ample, with the rains we are now certain to get, to give a full supply for the Summer. Before this storm set in the outlook was discouraging enough, but now everyone feels jubilant and confident that there will be a prosperous and profitable season both in mining and farming in the valley.

Lost Man Department.

Information is wanted of Hukun Boux, a Frenchman, who left Red Bluff for Susanville, Lassen county, March 6, 1883; was heard from at Susanville on the 13th, since when his whereabouts have been unknown. Boux is a small man, brown hair, sandy moustache, long goatee, straight nose, light-blue eyes.

Information is wanted by N. T. Rice, Hornellsville, New York, of Johnny Rice. Was last heard from in Reno, September 1882.

Mrs. Henry D. Smock of Morganville, New Jersey, wants to know whether Wm. Newell Perrine is dead or alive, as he has not been heard from for fifteen years.

Church Notices.

Services at the Baptist Church at 11 o'clock A. M. and 7 P. M. by the pastor Rev. E. B. Hatch. Morning subject: "Love for the Church." Evening: "The Day of Small Things." Praise service in the evening from 7 to 7:30 o'clock. Seats free and all made welcome.

Bishop Whitaker will preach at St. Peter's Episcopal Church in Carson to-morrow, and administer the rite of confirmation.

Rev. A. B. Palmer will preach at the Congregational Church morning and evening at the usual hours of service. Morning subject: "The Heavens Declare the Glory of God." Sunday-school at 12:15. Seats free and all cordially welcomed.

Good Shooting at Carson.

At Treadway's Park Thursday the following score was made by the Carson team which exceeds by 11 points, in the aggregate, says the Carson Appeal, the best score ever made in California for the "Andrews" trophy:

Name	200 yds.	500 yds.
Crawford	45	47-92
Kling	41	50-91
Silcomb	43	44-87
Thaxter	45	42-87
Parker	41	42-83
J. Saffell	42	44-86

Funeral of Jacob Beam.

The funeral of Jacob Beam took place from the Masonic Hall, Carson, yesterday afternoon, under the auspices of the Masons and Odd Fellows. There was a large gathering of friends at the services, which were conducted by Rev. G. R. Davis, Chaplain of the Lodge. The Episcopal choir sang the hymns and the body was followed to the cemetery by a long procession of Masons and Odd Fellows in regalia.

Notice to the Ladies of Reno.

Mrs. M. A. Foster of Carson gives notice to the ladies of Reno that she will make a fine display of millinery at the Palace Hotel, consisting principally of trimmed bonnets and hats, which she will offer at the lowest possible prices. All are invited to call and examine the elegant display.

Transit of a Railroad King.

Henry Villard, king of the Northern Pacific, with a party of friends, went through Reno to-day about 10 o'clock without stopping. The locomotive seemed to turn up its nose in disdain at our country town. It is some satisfaction to know they were not going very fast. A cattle train frequently passes here at greater speed.

Special Meeting.

Reno Chapter, No. 7, R. A. M., are requested to meet at their hall on Saturday evening, April 7th, for work in the Royal Arch degree. Companions and sojourning companions are invited to attend. By order of the M. E. H. P.

W. L. BECHTEL, Secretary.

An Old Odd Fellow.

Joshua Brown McShane, the oldest Odd Fellow in California, died at Quincy, Plumas county, on the 27th of March. McShane was initiated in 1838, in Wisconsin, by Thos. Wilkey, the father of the order in the United States.

An Informality to Correct.

The dividend of 20 cents per share recently declared by the Yellow Jacket Company was yesterday rescinded on account of some legal informality in the method of declaring it.

One of the Donners.

A girl found "lost" in the streets of Oakland a day or two ago said her grand-mother was Mrs. Donner of the Donner Party, who were snow-bound at Donner lake in '49.

THE COOMBS TRIAL.

Great Interest Taken in the Matter at the Capital.

The trial of Coombs for the murder of Ross excites much interest in Carson. The prosecution closed yesterday. A pantomimic description of the fatal struggle between Ross and Coombs was given on the Court-room floor. One of the witnesses and attorney Soderburg assumed positions on the floor, such as were supposed to have been occupied by Ross and Coombs—witness assuming the position of Ross, and the third shot was shown in pantomime. The spectators took the liveliest interest in these illustrations, many crowding inside the rail to get a better view. Witness stated that after Coombs said, "I have killed my best friend," he added, "But I had to do it."

Prof. Feray's Dance To-Night.

Prof. Feray will have one of his social dances at Kimball Hall to-night. All who attend will enjoy themselves, as usual.
